Light**

Dimmer & Flasher:

The white LED light has minimum 2 step dimmer and fast flasher.

Red & Green LED:

The light has on the reflector side, red and green LED's for continuous and flashing operations.

Tactical Switch:

Single tactical switch for all operations with inbuilt LED indication of the battery status (red / green)

Strap for Carriage:

A strap of minimum 6 inch loop is provided.

Weight:

The weight of light with battery is 180 grams, without battery 130 grams.

Rotating Head:

The light has an articulated head from 0 to 90 degree angle and the light is operational for all features in all angles. The user can easily adjust the light easily manually without using any tools.

Magnetic Base:

The light has a magnetic base to enable static usage on metal.

← Magnetic Base

Body of Light:

Should be made of super tough Aircraft grade Aluminum alloy material. There will be no major damage/crack to the body during the Mechanical shock.

↙ Aircraft Grade Aluminum Alloy Material

Battery:

It has an In-built 18650 x 1 Rechargeable Li-ion battery cell of minimum 2.6Ah capacity. Inbuilt charger, through micro-usb / micro-switch to enable battery charging without taking out the battery with a provision to easily take out the battery if desired by user.

Battery Charger:

Battery charge from AC 220 V within 4 hours. It has an auto cut off to prevent overcharging of the battery after it is fully charged.

Physical Features / Dimensions:

The front diameter: 28 mm, overall length: 158 mm.

Ruggedized:

- Water Resistant: The HHSL is able to resist rain water.
- Operating Temperature: 20 C to +65 .
- Mechanical Shock Resistant: The HHSL can sustain a drop from a height of 3 feet

IPR Violation:

No Indian IPR violation.

Indian Govt / NABL accredited Lab test certificate:

Necessary NABLTest Reports are available
