

# UNDER VEHICLE SEARCH SYSTEM

***Must for : Airports, VVIP Security,  
Parliament, Important Strategic Buildings,  
Car Parkings, Hotel, Shopping Malls.***

**UNDER VEHICLE SEARCH SYSTEM(UVSS)** is used for explosives / narcotics / weapon searching under & over vehicles, container, over-hidden areas, under Almiraahs, Luggage , holes, etc where accessibility is risky, tough and illumination low / NIL. Also an ideal tool for bomb disposal, counter - terrorist operations etc. Complete visibility / detection using minimum risk.

- 5.5/5.0 inch TFT LCD (slim line) with colour display.
- Telescopic stand, extendable upto 1.2 meter (Option available upto 2 meters).
- Portable Rechargeable SMF battery.
- Battery can be charged from 110 / 220 AC supply with suitable charger.
- The entire system is packed in heavy duty, impact resistant durable suitcase.
- The system is light in weight, water resistant, and very flexible to suit different application requirement.

*Due to ongoing R&D & product improvization, specifications , pictures & features of the product are subject to change without any notice .*

This complete kit contains a variety of user- friendly components, to give end users a premium search device. It is used in the same way as a tactical search mirror but with greater flexibility and without the need for end users to bend over on their hands and knees to view underneath vehicles. Video Search Kit converts from a single- use tool to a multi- purpose search system depending on situational demands.

### **CAMERA:**

- Manual 360° camera swivel and tilt function
- Works on 12V DC Battery supply
- Bullet size , front diameter : 25 mm, dia with rings : 35 mm
- Small size, gets into any constrained space etc.

### **POLE CAMERA SEARCH MODE:**

- The UVSS takes less than 20 seconds change from the under-vehicle search mode to a pole cam method for searching in attics, overhead compartments, trunks, or the back of transport trucks.
- The telescopic pole is available in 2 configurations i.e. extended length upto 1.3 metres and upto 2 metres. Other optional customized sizes like 3, 4 or 5 metres is also available on specialized bulk requirement.
- No tool is required to change from one mode to another.
- It can be used in the same way that other search mirrors are utilized: hold the pole cam configuration with the camera close to the ground and search under office furniture or any objects close to the ground to get a detailed view.

## UNDER VEHICLE TROLLEY:

4 swivel trolley wheels for free easy quick movement  
Heavy duty, powder coated under vehicle trolley  
Easy slot in front for camera to fit into by simple push  
Trolley rolled under a vehicle for a picture perfect view of the undercarriage. The low axis of this system makes it ideal for viewing under the smallest of vehicles.

No need to bend / etc users neck. This system can also be used to view under office furniture, airplane seats and any location that can be reached with the low profile trolley.

## BATTERY PACK & CHARGER:

- The Power Pack comes in a very handy and comfortable soft / leather bag. Each power pack as one connector coming out, which is same for charging as well as for using it for connection to system for its usage. Each Power Pack would give usage of min. 4 hours to the system, after which the battery would require charging. The power pack will simply cut off the supply to system when they reach low voltage, and this would mean they need to be recharged.
- This unique video system is so versatile, it can be shared by all departments, and can be applied to numerous situations and scenarios.

## SUITCASE PACKING - LIGHT IN WEIGHT:
